Capabilities in Town During Emergency Events

Recommendation:

It is recommended that the Town Council adopt the attached Resolution No. 3076.26 as presented.

Background:

Proper and quick response when wet weather events occur is critical for the safety and wellbeing of our community. Ensuring the proper functioning of the Town's Stormwater System is critical during these types of events. The Town's Stormwater System is comprised of permanent and temporary pumps, emergency backup generators, automatic transfer switches and a system free and clear of debris.

The Town relies on vendors (Gen Serv, Pump Station Maintenance and Vactor Trucks Providers) to ensure that the system is functional and ready to operate as designed.

The ability to be able to run the Town and provide emergency relief during these types of events as soon as possible is critical. I am asking for authority and approval, with the consent of the Mayor, to take any and all corrective measures to ensure the proper operation of the Town's Stormwater System, to include the energizing, cleaning and proper operation during incidents that may arise. This will ensure that the Town is equipped to handle these types of events and provide emergency relief to the Residents of the Town as needed. It is requested that with the consent of the Mayor, and acceptance by the Town Council (after the fact), the authorization of funds in an amount not to exceed \$50,000 per occurrence.

Fiscal Impact:
